No 60

GENERALS MAY BE ENVELOPED.

Heroism and Sacrifice alone prevented the Demolition of the Russian Army—Japanese push the Pursuit and may Capture the Fleeing Remnant.

Today's despatches indicate that the Russian army is making a precipitate retreat on the Pass, where defences have been erected during the winter to meet such emergencies as the present. The Japanese are pursuing the vanquished horde, and it is uncertain whether the remainder of the Russian forces will reach the Pass or be captured.

to be abandoned. The various units can only be rallied and sorted behind the protecting positions of the Pass should they reach that shelter. Had Oyama had but a brigade or two of fresh cavalry to hurl upon the retreating masses, it is probable that hardly a remnant would have escaped. As it is, all is confusion and the pursuit may yet envelope the Russian generals before they can rally their commands at the Pass.

Sacrifice Prevented Annihilation.

Editor Bulletin:

London, March 14.—Later accounts only tend to magnify the disaster that has overtaken the great Russian field army, but it appears as if the lesson is to be drawn away at St. Petersburg. Pride overcomes prudence, and the lost prestige of a beaten army is placed before the national welfare. Kurogakin tendered his resignation broken in mind and body, but perhaps he has found an even more difficult foe in this bureaucracy than he has had to meet on the field of battle. With all his mistakes he still appears to be the most capable of the Russian generals and the task of selecting his successor must now be a matter of anxiety for the court. Whoever the final choice may be, his lot is not to be envied, for it is clear enough that the Russian field force has received a shock from which it must take many months to recover. The full horror of the last hours of battle, and of the terrible retreat will perhaps never be known, but brief despatches point to a general confusion that was only saved from deteriorating into an indescribable rout by the bold sacrifice of the rear guard and by the heroic patience of the beaten soldiers. Company was separated from battalion, battalion from regiment, and regiment from division while every pretence at cohesion had

Highwaymen Heavily Punished.

Bulletin Special.

Winnipeg, March 14.—Sandercock and McDonald, two highwaymen who kept Winnipeg in a state of trepidation last fall, were sentenced today at the assizes for highway robbery and assault to 15 and 40 years respectively, and 75 lashes each. The civic fire committee heard important reports tonight. The city will now have a high pressure fire system. (The chief's annual report showed that Winnipeg's fires in 1904 cost \$400,000. The report on fire halls showed that the city was too niggardly in its cost of building, and that therefore woodwork was defective and unseasoned. Extensive repairs may have to be made.

Student Residences.

Bulletin Special.

Montreal, March 14.—Sir Wm. C. MacDonald has offered to endow two residences for students in connection with the agricultural college and school which he is erecting, and will endow the same.

B.C. Mine Fire.

Bulletin Special.

Vancouver, B. C., March 14.—Fire destroyed the Coal Creek mine tipple. Loss \$150,000.

California Floods.

Bulletin Special.

Los Angeles, Cal. March 14.—Floods carried away the Seventh street bridge and three people lost their lives.

TUESDAY, MARCH 14th, 1905.

PARLIAMENT

Ottawa, March 14th, 1905.

The Schools Difficulty.

The week just closing has been a history-maker. Although the formal introduction of the bills creating the new provinces of Alberta and Saskatchewan was important, it was rather a mile-stone marking the growth of Canada and the development of the West than an historical event. But the resignation of the Minister of Interior a week later on the educational issue raised by the bill is a new starting point. The possible result of the resignation of the Minister and the question thereby brought to issue in the political arena exceeds in importance the mere act of creation of the provinces out of which the issue grew.

Danger in Delays.

Since Wednesday there have been rumors of possible conciliation, but up to the present they have not been verified, and each day that passes without a successful settlement, makes settlement increasingly difficult. Necessarily changes and counter-changes are being made and animosities are being created which will be difficult, if not impossible to heal. It is surely a startling change by which the measure that was received with universal acclaim less than two weeks ago as a manifestation of statesmanship and giving added strength to an already strong Government, should so soon become the cause of its possible wreck; for that this is a present possibility is a fact to be faced.

Two Points of Attack

There are two views on the part of those who are opposed to the educational clauses of the provincial bills as introduced. One is that of those, chiefly in Eastern Canada, who take the ground that the provinces should under no circumstances be restricted in their educational rights. Another, which is held chiefly in the West, is that, admitting for national reasons that the minority rights accorded under the North West Act of '75 should be continued, hold that the legislation as introduced is not confined to the rights then conferred, and is therefore objectionable. In arguing from these two points of view there is considerable divergence of expression, but the net result to the prestige of the Government in connection with the measure as introduced is the same. On the part of the Government it is held that the spirit as well as the letter of the constitution, and sound public policy, demands that the minority rights provided for in '75 should be continued and confirmed; that there is no intention to go beyond that point; and that those who claim that the legislation as introduced does go beyond it, are mistaken. It is further said on behalf of the Government that in order to avoid any possible misunderstanding, amendments that will adequately meet the case will be accepted. But the difficulty is to find amendments which will meet the case according to the views of the two parties to the discussion.

Diamond Cut Diamond

It is just possible that while each party claims to be actuated by the utmost spirit of fairness, there is still a lurking desire on the part of each to get the advantage in the deal. It would be useless to minimize the importance of the issue or the tremendous nature of the possible results of a continuation of the controversy. On the one hand, according to the views expressed, there is a possibility of fastening an objectionable system of education upon the two provinces which ultimately must constitute the controlling force in the Dominion of Canada. On the other is the possibility of a change of administration and policy in the government of the country at a time when judged by the results of the past and the confidence expressed so recently by the electors at the polls, it is in the last degree desirable that there should be no change in either policy or administration.

H.B.K. BRAND

BIG SHIRT

Made big enough for a big man to work in with comfort. Has more material in it than any other brand of shirt in Canada. Made on the H.B.K. scale it requires 39½ to 42 yards per dozen, whereas common shirts have only 32 to 33 yards.

That's the reason why the H.B.K. "Big" Shirt never chafes the armpits, is never tight at the neck or wristbands, is always loose, full and comfortable and wears well.

Each shirt bears a tiny book that tells the whole history of the "Big" Shirt, and also contains a notarial declaration that the H.B.K. "Big" Shirt contains 39½ to 42 yards of material per dozen.

Sold at all dealers but only with this brand:—

PARLIAMENT.

Continued from page two.

Possible Setback for the West.

The North West is believed to be on the eve of an era of material development such as its pioneers have looked and longed for for a quarter of a century; to risk the disappointment of these long-deferred hopes would certainly be a serious matter and one that cannot be lightly disposed of. The question in all its bearings brings out strongly the tremendous importance of what some people are pleased to call the game of politics. It is a game in which everybody has a part, whether willing, whether active or passive, and in a self-governing country every man must share responsibility for the result.

The Leaders in the Fight.

During the outside discussions, which have taken place, it has come to be conceded that there is a certain personal element in the quarrel. Sifton and Fitzpatrick are recognized as the exponents of the opposing views; both were members of the Cabinet; each one knew that the other could never accede wholly to the views of his colleague; there is supposed to have been to some extent a struggle for dominance between the two most energetic and brightest men in the Cabinet. It is possible that on the part of Fitzpatrick the resignation of Sifton was to some extent the success of his efforts, as it was apparently, and for the moment, the triumph of his views. But the fact that Sifton out of the Cabinet is a very much more powerful factor towards influencing the direction of the affairs of Canada at this juncture than Sifton in the Cabinet could possibly have been, may very well have been outside of Mr. Fitzpatrick's calculations, and as well have been within those of his ex-colleague.

Results not in Sight.

At the moment speculation is futile as to the result of the difficulty; it would almost seem, however, that whatever compromise may be arrived at, there is only room in the Cabinet for one of these two leading men.

TIME FOR INTERVENTION.

The catastrophe which has befallen the Manchurian army should make plain even to the never failing confidence of the Romanoffs that Russian arms are not invincible, and should suggest that there are times when loyalty is best expressed and served by acknowledgement of defeat.

If the Czar is still unable to see the point some kindly disposed neighbor might undertake to explain matters to him. True, Russia has declared many times that she would brook no interference, consider no compromise and fight it out to the bitter end. It may be assumed without violation of fact that that end is about at hand. At any rate these martial decrees were issued some time since and the progress of subsequent events will be accepted as offering a substantial reason for disregarding them.

However the Czar and his Government may regard the situation, the bald fact remains apparent to the world that Russia has been very thoroughly whipped on land and sea that the former centre of her power in the Far East is now the base of her enemy's operations, that the splendid fleet on which she relied for protection of her Pacific Coast line now lies a tangled mass of iron at the bottom of the ocean, that the army which she taxed her resources for a year to pour into Manchuria has been defeated and scattered to the winds, that her sole remaining point of vantage is a second rate fortress, situated on an ice bound harbor and that the fleets and armies of Japan are now free to isolate and lay siege to this remaining stronghold. The remnants of Kurapatkin's army may be rallied for a last stand at the Pass or Harbin but it will be the forlorn hope of a frantic commander and an army too stubborn to surrender, but too weak and discouraged to win. A defeated army may be rallied, a routed army seldom can be and Kurapatkin's army has been thoroughly beaten, routed if not panic stricken and robbed of the enormous stores which had been accumulated behind the lines at Mukden. The Japanese claim to have weakened the opponents by an actual loss in killed, captured and wounded amounting to 150,000 men or more. If an army of 340,000 could not hold a position which they had spent six months in fortifying how can half that number discouraged and worn by fatigue and despoiled of artillery and supplies be expected to hurl back the masses of the victorious enemy? Only an awful blunder on the part of Oyama in following up his victory can turn the tide of battle and the history of the present and former wars afford Russia small ground for hope that the head of the wily old general is to be turned by success.

To the outside world the Russian cause in the East is lost and this belief might be made an excuse by some mutually friendly power for suggesting that peace negotiations be opened and useless slaughter prevented.

CURING THE FILLER

THE Pharaoh filler I select in Manicaragua—Province of Santa Clara, Cuba, is generally harvested in February.

The plants are cut down at daybreak—allowed to remain until eleven o'clock in the morning—until they are properly wilted—then taken to curing houses for drying.

After they are thoroughly dried they are allowed to become moist through atmospheric humidity and then made into "hands." Four of these hands constitute a carat, eighty carats make a bale.

After allowing it to age for three full years, in order to develop its superb fragrance and aroma, I make it up into "Pharaoh."

That's why there is a taste and odor of genuine tobacco in my Pharaoh Cigar.

IMPERIAL RELATIONS

WERE DISCUSSED BY
PARLIAMENT

Col. Hughes has one Plan and Mr. Berden Another—The Premier Favored Evolution.

Ottawa, March 14. — Yesterday's session was occupied by a debate on Col. Hughes' motion for an inter-imperial conference. The Premier considered that the present relations were satisfactory, but looked for gradual changes as new conditions arose. Mr. Berden favored imperial trade reciprocity, rather than legislative union. There have been no developments in the Cabinet difficulty.

Plague in South America.

Bulletin Special.

Valparaiso, March 14.—Hundreds of people have died of bubonic plague at Pisano. The houses are deserted and the bodies lie there in a horrible state.

CONTRACT LET FOR THE POWER HOUSE

Mr. Chas. May has secured the contract for the erection of the power house for the Edmonton Street Railway Company. The work will be begun during the spring and pushed to completion with as little delay as possible. The location and plans of the proposed building will not be definitely decided until the visit of the company's engineer, Mr. Campbell during April. The suggested plan however is for a brick structure 47x85 feet, one story in height.

Epworth League Convention

The annual convention of the Epworth Leagues of the Edmonton and Vermilion Districts will be held in McDougall Methodist Church, beginning to-morrow evening and continuing throughout Thursday. Sessions will be held at 7.45 to-morrow and Thursday evenings and at 9.30 a.m., and 2 p.m. on Thursday. Representatives of the Leagues throughout the district will be present and a large number of subjects of interest will be discussed. Music will be furnished by the choirs of McDougall and Strathcona Methodist Churches. Rev. Dr. Woodsworth of Winnipeg will be present.

Want to Join Canada

A Tacoma, Wash., despatch says: The citizens of Alaska are ablaze with indignation because of the bill allowing a delegate in Congress for Alaska was killed last week in the Senate Committee. A mass-meeting held at Valdez yesterday decided to send the following telegram to President Roosevelt: "On behalf of 50,000 American citizens in Alaska, who are denied the right of representation in any form, we demand, in mass-meeting assembled, that Alaska be annexed to Canada."

DIED.

Hoyer.—At the General Hospital, Edmonton, March 13, William Henry Hoyer, son of the late Captain Edmund J. Hoyer, M.P., of Nanaimo, Ontario. Winnipeg and Toronto papers please copy.

MacMahon.—F. Stewart, at Prince Albert on Sunday, March 5, beloved and only son of F. P. and Alice M. MacMahon. The body was brought to Edmonton, where a private funeral was conducted, interment being made in the Edmonton Cemetery. Toronto and St. Catharines papers please copy.

WANTED.

GOOD AGENTS FOR THE Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

MONTREAL.

PONOKA HAS A FIRE.

DAMAGE PLACED AT \$40,000.

Many Stores in the Thriving Town
Destroyed — Several Families
Homeless.

Bulletin Special.

Ponoka, March 14.—Sunday, March 12th, will be remembered as a red letter day in the history of Ponoka. A destructive fire, which broke out in the early hours of the still morning, came upon the slumbering citizens with startling suddenness and, notwithstanding the superhuman exertions of the people, claimed a large portion of the town. The losses sustained are Beck's livery barn, two houses, furniture store, general grocery store, hardware store, and the Canadian Bank of Commerce, besides the office of Mr. Jackson, advocate. Several families are rendered homeless. The estimated loss will amount to forty thousand and only about half covered by insurance.

SUCCESSFUL AT HOME.**Correspondence**

Last Friday night a quiet social evening was spent in Vegreville church. A short programme including instrumentals and readings was rendered under the management of the church choir. Among those who figured prominently in the entertainment, we may mention the following:—Mr and Mrs. Morrison, Mrs. (Rev.) Argue and Dr. Goodwin. In spite of the threatening weather there was a moderately full house.

The following is a list of freighters to the west during the week:—Thirteen teams to Edmonton for the Common Wealth Co. of Warwick; four teams from Burch and Fuller's to Edmonton. The following are from Vegreville:—Some going for freight—for tradesmen in town but some are going for goods for themselves, Messrs. Hawthorne, Trenballe, Dunham, Fleming, Wilson, Harlon, Abbott, Trimble and others. Besides this quota several teams have been engaged in drawing oats to the east to Burch and Fuller's, on C. N. R. contract.

With the disappearance of our excellent open air rink Vegreville has become a very quiet country place. However scores of freighters are coming and going.

Mr. D. McCallum of Beaver Lake who had his right hand badly crushed in a chopper a few days ago has had to undergo an operation. On Saturday last Dr. Turner found it necessary to amputate the arm a very short distance below the elbow. It is sincerely hoped that Mr. McCallum, who has been a strong robust man throughout the whole of his life will soon again be in possession of good health.

Dr. Turner was called to the south end of Burch Lake to visit the infant child of Mr. H. McLenn. The child was exceedingly sick with pneumonia and at the time of writing is in very poor health.

A new residence is soon to be erected in Vegreville by Messrs. T. Farrel and Richardson.

Mr. Chas. Spencer came into town this week with a live coyote.

Vegreville, March 11th, 1905.

ST ALBERT GRIST MILL.

The contract for equipping the new St Albert Municipal flour mill has been let to R. M. Armstrong, acting for the Stratford Mill Building Co. The contract for the building will be let in the course of a few days. The building will be of brick 36x48, four stories in height, and the mill will have a capacity of 100 barrels per day. It will be located on the river bank west of Herbert & Perron's store.

Plans and specifications for the erection of a brick store may be seen and tenders received at the office of the undersigned up to noon of Saturday, the 18th inst.

CLEAN UP.

The epidemic with which Strathcona is now struggling should be a warning to both towns to see to the conditions of the lanes and yards here after with tireless vigilance. What ever may have been the origin of the disease, cleanliness is an acknowledged weapon of defense against all infectious maladies. The health of the community is of more consequence than the convenience of the individual and the authorities of Strathcona and Edmonton should accept no excuses for violation of the health by-laws.

MARTINS.

Correspondence.

P. P. Kjosness, car merchant, was in Edmonton on a business trip this week.

O. H. Ronnie, car shoemaker, was also in Edmonton and Strathcona on a business trip.

Our general store is gradually being enlarged. It is the intention of the proprietor to erect a large warehouse in addition to his now commodious store.

The snow has left our fair burg, and we presume it has gone to stay. At least we hope so, though it makes the streets rather muddy at present.

The new bridge across the Vermilion is completed except the grading of the approaches, which will not be done until spring.

It is our sad duty to chronicle a very painful accident which occurred here last week. Master Elvin Kjosness, a boy of seven years of age, was caught by the tumbling-rod of a horse-power, used for supplying power to a feed grinder. The little fellow was twisted round the rod several times through a space not more than six inches from the ground. His left leg was broken in two places (above and below the knee) and otherwise fractured. Dr. Turner of Vegreville, was quickly summoned and the broken leg set and at present he is progressing as favorably as could be expected.

HOSPITAL DONATIONS.

The following donations were received at the Public Hospital during the month of February:

Cream and 3 lbs. butter, J. Johnson.

Three dozen eggs, W. F. Craig.

Two lbs. butter and jar of fruit, Mrs. Webb.

40 jars preserved fruit and raw fruit, Ladies' Aid McDougall Methodist church.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining. Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. In the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained. Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water

mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notices and paying fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner. The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent, of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz, and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

POPULATION, 7,500

CITY GOVERNMENT:—

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:—C. W. Sutter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

LOCAL

—Train on time.

—Pros.: Fair and milder.

—A light fall of snow occurred this morning.

—Regular meeting of the city council this evening at 8 o'clock in the council chamber.

—The preliminary trial in the Broderick murder case will be held at the Fort tomorrow afternoon.

—"Teaching in winter" is the title of an article in the current issue of the Western Home Monthly, describing a trip from Edmonton to Athabasca Landing.

—The Mandolin and Guitar Club will meet for the regular Wednesday evening practice, at Mr. Plowright's studio in the Heimeck Block tomorrow evening at 8.30.

—Mr. W. H. Hooper, formerly of Brandon, Manitoba, but for several years past a resident of Edmonton and a prominent real estate man here, died last night at the General Hospital. Deceased had been ill for some time. Two daughters reside in the city, and a son near Lamoureux.

—Mr. C. W. Cross and family returned from the east last night. Mr. Cross was one of the Edmonton delegates to Ottawa to secure the establishment of the temporary provincial capital here. A report from the delegation will be submitted to the city council at an early date.

—Blairmore Times: Calgary is badly encroached over the capital question for the new province of Alberta, and is looking to the south for sympathy. Well, this looks to us to be Calgary's and Edmonton's fight, and it will be a good thing for the balance of the towns to let them fight it out among themselves.

—Last night the Epworth League of Grace Methodist church had a very pleasant evening of Irish song and poetry. Those taking part in the program were Mesdames Salfon, C. Morris, Stutchbury, and Miss E. Garrett, and Messrs. Jamieson, Irvine, Vahy and Stutchbury, Miss Clark and Mr. Story were the accompanists and Mr. A. E. Hutton the chairman.

—Calgary Herald: C. O. Swanson, government traveling agent, arrived from the states this morning with 150 emigrants from Iowa, Minnesota, North and South Dakota. These were joined here by fifty others from various sources and the whole contingent went north in a long and heavily loaded train.

—Free Press: A. E. May, commissioner of Edmonton, was in the city on business yesterday. Mr. May ascribes the success of Edmonton in securing the provisional capital, as due in part to the superior location of the town and also to the exertions of Frank Oliver, M.P. Edmonton people feel assured that the legislative buildings will be erected there.

—A concert will be given under the auspices of the Methodist Society at Belmont on Wednesday, March 22, at 8 o'clock in the school house. A good program has been provided for by the society, consisting of songs, recitations and addresses. The Methodist choir of Edmonton will be in attendance. Refreshments will be served by the ladies of the district. Admission, adults 25c, and children 15c.

—Free Press: John Gunn, of this city, returned last night over the Canadian Northern from Prince Albert, where he has been engaged in building the foundation for the bridge over the South Saskatchewan. Mr. Gunn states that in the excavation a solid base for the concrete was reached in the first pier 22 feet below the bed of the river. In putting in the bridge the piers it will not be necessary to go so deep. Conditions are very favorable at the present time for this work, and it is believed that it will be completed before the spring break-up, if this is as late as usual. The bridge which the company is erecting is 1,400 feet long, and is located seventeen miles southeast of Prince Albert.

Superfluous Hair

Removed by the New Principle

De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. DE MIRACLE is not. It is the only method which is endorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

DE MIRACLE will be mailed to any address, sealed in plain wrapper for \$1. Your money back without question if it fails to do all that is claimed for it.

Our booklet—the most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain, sealed envelope, upon request. Write for it to-day to DE MIRACLE CHEMICAL CO., 23 QUEEN STREET WEST, TORONTO, or THE ROBERT SIMPSON COMPANY LIMITED, TORONTO, ONT.

WRITE FOR CIRCULARS

—Chinese lanterns, a picture gallery good music and a large and sociable crowd were the features at the entertainment of the Presbyterian Young People's Society last evening. Invitations had been extended to the Methodist and Baptist societies, many of whom responded. (The school room of the church was artistically draped in flags and bunting; while the colored lights from the lanterns gave a most charming effect. Refreshments gave added zest to the occasion and many a joke was passed as to who were represented in the art gallery. Two weeks from last night a union meeting will be held by the Presbyterian Society, at which the sister societies will be present and take part in the proceedings.

PERSONAL.

J. K. Cornwall left on Saturday for Lesser Slave Lake.

D. Goodwin, of Vegreville, is in the city.

Mr. and Mrs. C. W. Croes and son returned from the east last evening.
